Overview

The BeaverBots is a new and promising FIRST® Tech Challenge team, and our mission is to empower STEM in our communities by providing our team with once-in-a-lifetime STEM and Robotics opportunities to pursue a deeper understanding of the world of robotics while also developing life skills in our team through real-world challenges.

Goals

1. To ensure that every team member has a motivating, enlightening, and beneficial experience on the team.
2. The youngsters take the initiative, while the adult mentors offer assistance and support. This guarantees that everybody on the team is actively involved and has the opportunity to accomplish and learn as much as possible!
3. BeaverBots aims to teach the young and new generation STEM, leadership, and a collaborative attitude that will be used in the outside world.
4. BeaverBots is committed to boosting STEM awareness through community-oriented events.
5. To continue to increase our fundraising efforts over the next couple of years.
6. Promoting FIRST in the Community
7. FIRST® Program Focus and Development
8. BeaverBots' major season goal is to build an operational robot that can compete in an event under regulations set by the association's organizers.
9. We are developing answers to engineering, safety, and competition concerns while learning from our experiences.
10. Have fun!

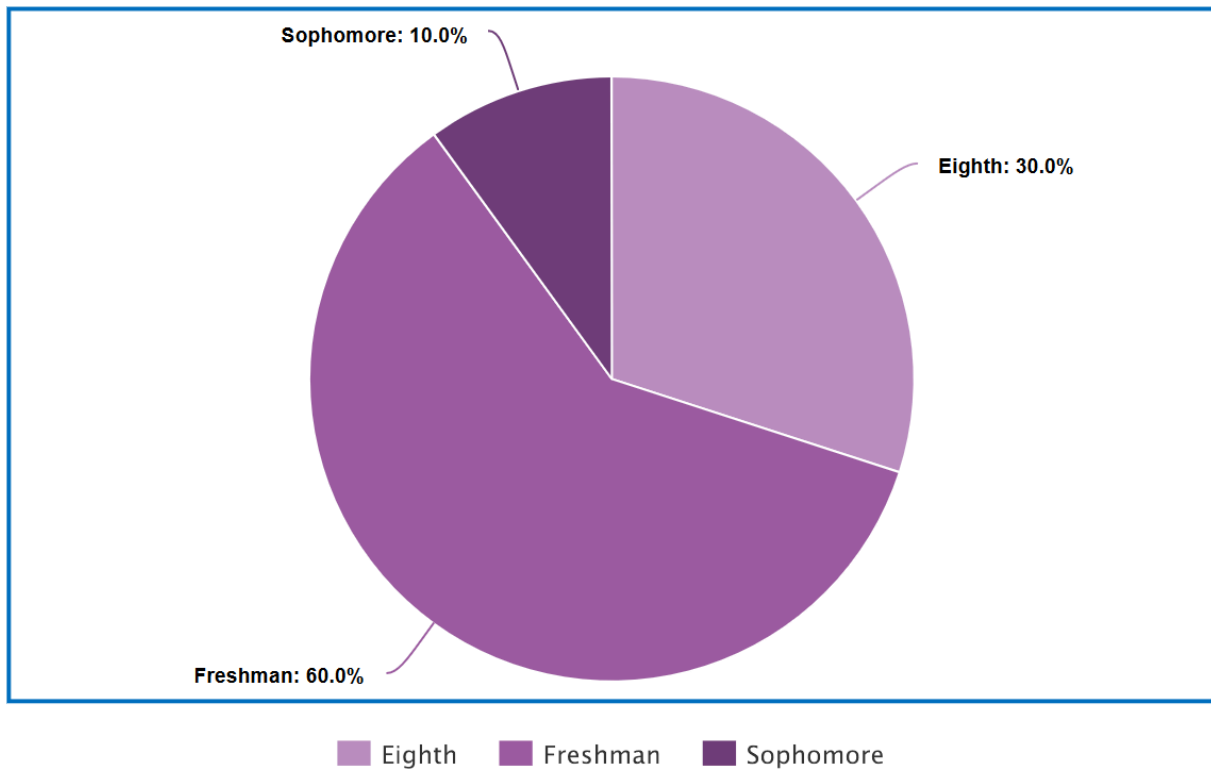

What is FTC?

The First® Tech Challenge is a program that helps students build an engineer's mindset.. FTC teams build, design, and code robots to compete against other teams. FTC encourages STEM-driven students to develop better leadership, teamwork, and problem-solving skills.

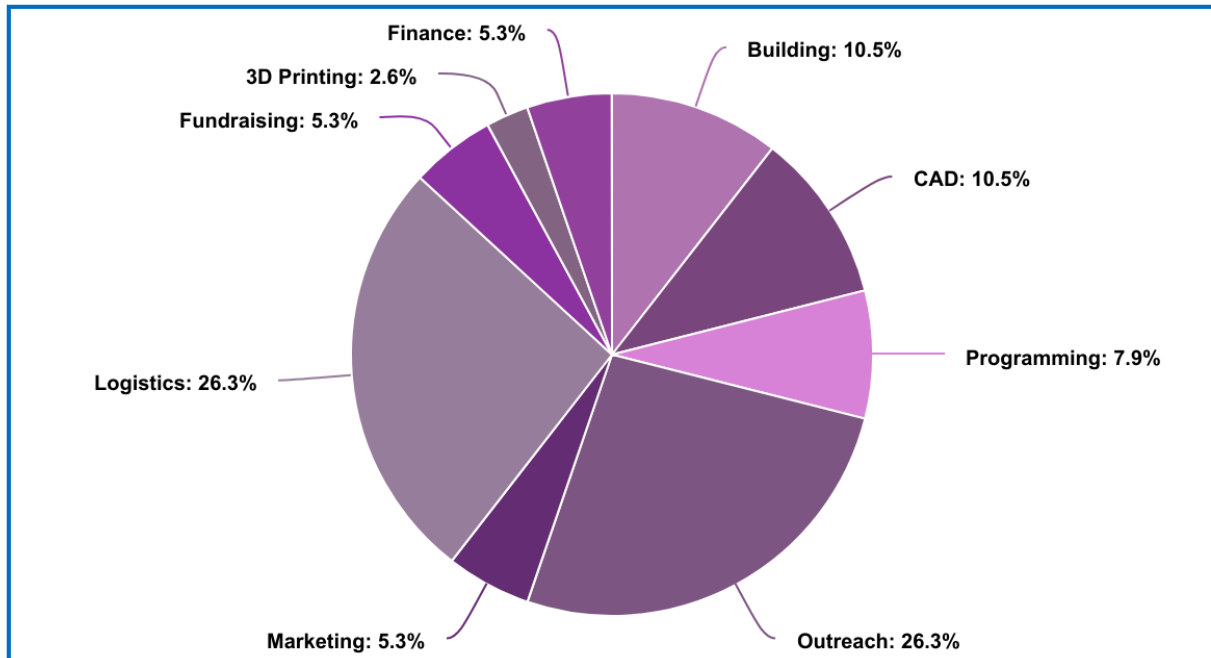

Statistics

Our team believes in giving everyone the equal opportunity to engage in the world of STEM and we have diversity for different characteristics in the BeaverBots, which sticks to our motives as a group and helps us varigate our ideas as a team.

FINAL PRICE: \$12,734.20

Value of Sponsorship

Our team of students wouldn't exist without the financial support of sponsors. Every aspect this group accomplishes is based on kind-heartedness and eagerness to help businesses and individuals seeking to make investments in future generations of engineers.

The benefits of becoming a sponsor for the BeaverBots will ensure:

- Guaranteed logo visibility
 - Our team will proudly display your logo on our website.
- Publicity on our social media
 - BeaverBots has a rapidly growing social media and online presence. In addition to receiving access to our team's online tools, we have a dedicated social media staff that will work throughout the year to promote the value of your contribution.
